

CEC Food Distribution

One of the best holiday events in Hollywood is the **Community Enhancement Collaboration Food Distribution** for families in need on Thanksgiving. The **Community Enhancement Collaboration** partnered with the **Washington Park Civic Association** and several **Hollywood City Commissioners** for the **10th Annual Holiday Food Distribution**. Nadine McCrea, President of the CEC, does a wonderful job every year organizing the event and providing a little bit of joy and holiday love for our residents who might not otherwise have the resources to enjoy a nice Thanksgiving Day dinner. This year was a bit different, as all the volunteers and elected officials were wearing face masks – and we were able to distribute the food in a way that was not only meaningful, but safe. This year brought together elected officials like Congresswoman Debbie Wasserman-Schultz, State Representative Marie Woodson, School Board Member Debbi Hixon, Mayor Josh Levy, members of the Hollywood City Commission, and numerous other volunteers. We collectively understand that the true spirit of Thanksgiving is helping make our neighbors' lives a little better – and we all work together to make it so. Thank you so much to everyone who participated – and thank you to Nadine for organizing it!

Thank you to all who participated!
