

[CEC partnered with Hispanic Unity of Broward](#)

By **Commissioner Beam Furr** – January, 2021

In a time of immense difficulty for so many in our community, it is heartening to see so many stepping up to support their neighbors. This includes the Community Enhancement Collaboration (CEC) run by Nadine McCrea. As a member of the Children's Services Council, I am proud that CSC funding helped to support this effort. The CEC partnered with Hispanic Unity of Broward to distribute food to dozens of residents struggling with food scarcity. I was glad to join other elected officials as well as Nadine and Hispanic Unity staff to help distribute food. We should be looking to our federal government to provide resources like expanded S.N.A.P. benefits to continue feeding residents in need. Community Enhancement Collaboration is partnered with the Children's Service Council of Broward to provide fresh products, meat, and essential items to 125 Hispanic Unity. Funded by Children's Service Council of Broward.

Thank you, Nadine for putting this together!
